Accreditation

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint providership of Tufts University School of Medicine (TUSM) and Steward St. Elizabeth’s Medical Center. TUSM is accredited by the ACCME to provide continuing medical education for physicians.

TUSM designates this live activity for a maximum 12.25 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
Course Agenda

May 28, 2015

7:30-8:30 Registration
8:30-9:00 Welcome
9:00-9:20 Mediastinoscopy Live Case
9:20-9:40 Mediastinal Anatomy & Surgical Staging
9:40-10:00 EBUS anatomy
10:00-10:15 Review 7th Ed. Lung Cancer Staging
10:15-10:30 Q&A
10:30-10:45 Morning Break
10:45-11:00 EBUS Techniques (Linear and Radial)
11:00-11:40 EUS Techniques (Linear and Radial)
11:40-12:00 EBUS Review of Evidence
12:00-12:15 Q&A
12:15-1:30 Lunch
1:30-2:00 EBUS Adjuncts (EMN,EUS, Imaging)
2:00-2:20 EUS Case
2:20-2:35 Specimens & Advanced Diagnostics
2:35-2:50 Q&A
2:50-3:05 Afternoon Break
3:05-3:25 Restaging
3:25-3:45 Documentation & Reimbursement
3:45-4:00 Quality Improvement Strategies
4:00-4:15 Optimal Use of Mid-Levels in IP Closing Remarks

May 29, 2015

8:40-9:00 EBUS Case
9:00-9:15 Transition to Hands-On Session
9:15-12:00 Hands-On Session
12:00-1:00 Lunch
1:00-4:00 Hands-On Session
4:00-4:15 Closing Remarks

Course Objectives

This course is designed for pulmonologists, chest surgeons, gastroenterologists and all other health care professionals interested in mediastinal evaluation.

The objective of this course is to review pertinent principles of endoscopic ultrasound and its application in the aerodigestive tract with a particular focus on staging of lung cancer.

At the conclusion of the course, participants will have a solid understanding of the basic principles of ultrasound as they apply to the esophagus and tracheobronchial tree. All procedural indications and cancer staging principles will be reviewed. Performance of endobronchial ultrasound with the radial probe and the dedicated endobronchial ultrasound scope for needle aspiration will be extensively practiced.

Learning Objectives

As a result of this educational activity, learners will be able to:

- Perform the procedures and interpret known indications, contraindications, and complications
- Implement the infrastructure, including the room space and equipment
- Distinguish the different lymph node stations for cancer staging.
