Student Assistance Program (SAP)

SAP Services Summary

- **Telephonic/Online Counseling:** Members facing stressful or emotional issues have 24/7, year-round access to prompt counseling services. Beginning with their first toll-free call, master’s level licensed clinicians will listen carefully to assess the member’s needs. Crisis intervention and licensed clinicians are always at the ready for urgent situations!

- **Innovative Web-based Services:** The Web site for members, [www.liveandworkwell.com](http://www.liveandworkwell.com), offers a wealth of information on a full range of topics. This site includes thousands of articles, interactive learning tools, cognitive behavioral therapy modules, searchable databases, financial calculators, and helpful resources for members to use to develop their own self-improvement strategies.

- **Legal and Financial Services:** Members may also turn to SAP for help with non-clinical issues, such as mounting credit card debt, divorce, child custody matters, and shelter from abusive relationships. The effect of these and other practical concerns can be just as detrimental to a member’s health and well-being as a clinical issue – and real assistance with these issues is included in the plan.

The toll free number for these services is included on the member’s medical ID card. Members may also access this information through their My Account on [www.uhcsr.com](http://www.uhcsr.com).

Telehealth Services

UnitedHealthcare StudentResources partnered with HealthiestYou, an innovative nationwide telehealth service, to provide members with round-the-clock access to board-certified physicians via phone and/or video chat*. They may be offered a consultation, diagnosis and treatment plan via phone and/or video chat with a licensed MD. If a medication is prescribed, the prescription will be sent electronically to the member’s preferred pharmacy. This service is especially helpful for common illnesses (bronchitis, strep throat, pink eye, etc.) and is included for UHCSR insured members. HealthiestYou also offers Geo-Fencing via the HealthiestYou smart phone app. If the member is ever in an Emergency Room or Urgent Care Center, they could receive a notification on their smart phone reminding them of this benefit.

*Telephone services and/or video chat availability is determined by state requirements.

Disclaimer: HealthiestYou is not health insurance. HealthiestYou is designed to complement, and not replace, the care you receive from your primary care physician.
