## **Mission Statement**

One of eight schools of Tufts University, Tufts University School of Medicine (TUSM) is one of the world's leading centers in medical education, research, and patient care. Since its

founding in 1893, TUSM has graduated more than 11,000 physicians and has made major contributions to the advancement of the science and practice of medicine.

Tufts University School of Medicine has a two-fold mission: to provide a comprehensive medical education thereby producing physicians well prepared for a wide range of health-related careers; and to advance biomedical knowledge with the ultimate goal of improving human health.
