**Recommended: Polio signed State Waiver Form.**

Students 21 years of age and younger: birthday.

Documentation of a dose of Polio vaccine.

Recommended (except for students 21 years of age and younger):

- Tetanus Diphtheria Acellular Pertussis (Tdap): 1 dose of the adult Tdap vaccine is required, in lieu of Td booster. The Tdap vaccine was licensed in 2005. **If Tdap dose is 10 years or older a Td booster is required.**

- Measles, Mumps and Rubella (MMR): positive rubella antibody titer required AND two doses of MMR vaccine OR positive antibody titers for measles, mumps and rubella.

  For antibody titers laboratory reports must be attached.

  If antibody titer is negative, provide documentation of previous series (if available), negative titer lab report, along with documentation of first dose of new series.

- Annual TB Testing: Tuberculosis Skin Test OR QuantiFERON Gold Testing: Required within 1 year prior to start date and required annually thereafter (for those with positive test results see positive TB section of form)

- Annual TB Testing: Tuberculosis Skin Test OR QuantiFERON Gold Testing:

  - TB Skin Test Read Date: __________ Induration: ________ Result: __________
  - QuantiFERON-TB Gold Test Date: ________________ OR

  Please sign and date form after test has been read mm/dd/yyyy

- Varicella (Chickenpox): positive antibody titer OR 2 doses of varicella vaccine.

  **If submitting antibody titer, must attach laboratory report with titer date and result.**

- Hepatitis B: positive quantitative (numeric) antibody titer required AND 3 doses of vaccine.

  **Must attach quantitative laboratory report with antibody titer date and result.**

  If antibody titer is negative, provide documentation of previous series (if available), negative titer lab report, along with documentation of first dose of new series.

- Influenza: The School of Medicine requires all students to submit documentation of the 2020-21 Annual Seasonal Influenza vaccine. **(The 2020-21 vaccine will be available in August 2020.)**

- Recommended: Polio proof of vaccination may be required in the future.
