Pathway to Clinical and Health Careers

So, you like science but don't know how to make it your career choice?

- Does the idea of working in a medical setting as a clinician interest you?
- Would you like to observe and learn how medical problems are solved by teams?
- Are you interested in discovering case based learning?
- Would you like to know how many health career paths are open to you?

For more information and to apply to this program contact Ariella Green at ariella.green@tufts.edu

During January, spend three weeks at the Tufts University School of Medicine, Sharewood Clinic, and Tufts Medical Center experiencing the work of clinicians.

Career Workshops

- Learn how to...
 - apply to MD/PhD programs
 - write resumes that open doors
 - finance your graduate education

Sample Clinical Pathways Schedule

Week 1 –

- Orientation
- Science and Society Seminar
- Problem based learning
- Intro to Physical Diagnosis
- Intro to Sharewood Clinic
- Clinical Shadowing
- Career pathways forum

Week 2 –

- Clinical teams
- Journal Club
- Problem based learning
- Setting up the problem
- Research Solutions

Week 3 –

- Repeat aspects of Week 2
- Career pathways forum
- Meet with mentors
- Reception

**At the end of the program,
student participants will be
able to:**

1. Describe the differences in the health professions and biomedical science careers represented at TUSM
2. List the prerequisites and key components of a successful application to their graduate or professional degree program of choice
3. Identify a health challenge and describe how at least three different professions may approach finding solutions
4. Demonstrate effective team-based learning skills
